Deliverable: Photo Galleries Module v0.1

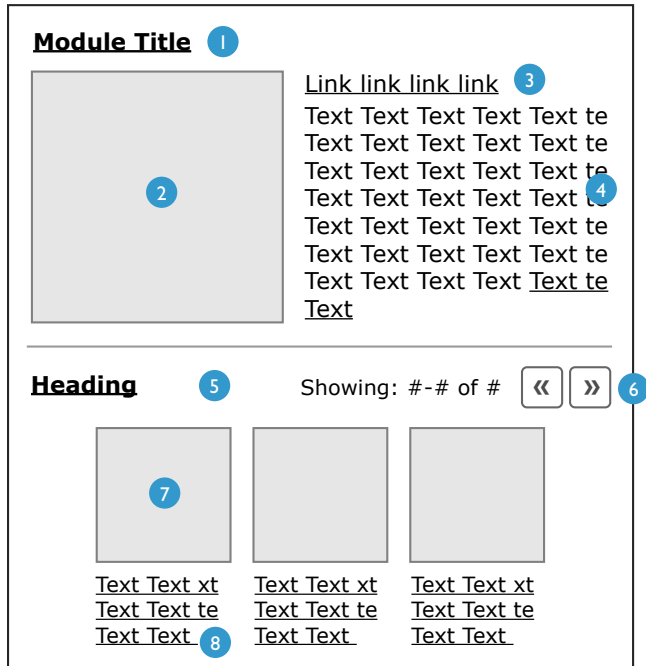

March 13, 2009

Author: Matt Glass

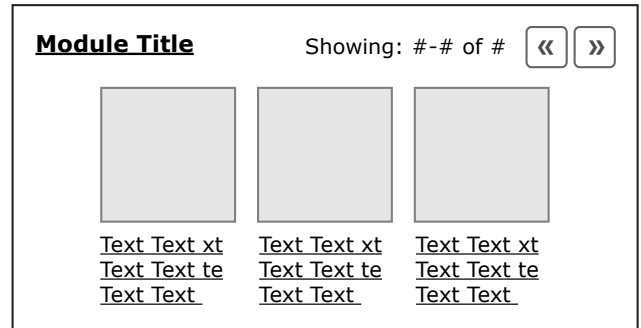

## Photo Galleries Module

Manually created photo galleries module.

### With Featured Gallery

### Standard

1. Optional module title, link optional. HTML text or image.
2. Featured gallery with large thumbnail 120 by 120px.  
Linked to same URL as #3.
3. Editor created text link.
4. Editor created teaser text.  
Ability for editor to add link within teaser text.
5. Heading with number of galleries in parenthesis.
6. Module pagination controls.  
User can navigate forwards and backwards through pagination cycle.  
Module paginates three units at a time, regardless of how many units are occupied.  
Pagination disappears if total number of galleries is three galleries or less.
7. Small thumbnails 64 by 64px.  
Linked to same URL as #8
8. Editor created text link.

Top section of this module is a featured gallery.

If no featured gallery is desired the module's height collapses accordingly (standard.)

# Dummy Content Examples

## With Featured Gallery

**Photo Galleries**

**Metropolitan Opera Gala**  
The opera company's 125th anniversary gala in NYC attracted the stars at Lincoln Center, in New York, on Sunday.
